First Aid for the Basic Sciences: Organ Systems, Third Edition (First Aid Series) By Tao Le MD MHS, William Hwang MD PhD, Vinayak Muralidhar MD MSc, Jared A. White MD

<?xml:namespace prefix = "o" ns = "urn:schemas-microsoft-com:office:office" />Comprehensive, single-source coverage of the entire second year of medical school!

First Aid for the Basic Sciences: Organ Systems, Third Edition is a unique single-source review of the entire second year medical school curriculum. This full-color, richly illustrated, and engagingly written resource provides readers with a solid understanding of basic sciences relative to human organ systems which all medical students must be familiar. When used with the companion review *First Aid for the Basic Sciences: General Principles, Third Edition*, this powerful combination distills must-know course information to help students survive their first two years of medical school and provides an in-depth review for the USMLE Step 1.

- An essential companion during your first two years of medical school
- Includes important foundational content most other reviews leave out
- Focuses on the high-yield topics and facts tested on the USMLE Step 1
- Enhanced by full-color images, learning aids, tables, and concise text to streamline your study and help you excel in coursework and on the USMLE Step 1
- Provides a complete framework for understanding anatomy, embryology, pathology, and pharmacology by organ systems
- Mirrors the table of contents of First Aid for the USMLE Step 1 to facilitate side-by-side study
- Written by students who aced the USMLE and reviewed by top faculty
