Problems for Metagrobologists: A Collection of Puzzles with Real Mathematical, Logical or Scientific Content (Problem Solving in Mathematics and Beyond) By David Singmaster

This book is a collection of over 200 problems that David Singmaster has composed since 1987. Some of the math problems have appeared in his various puzzle columns for BBC Radio and TV, Canadian Broadcasting, *Focus* (the UK popular science magazine), *Games and Puzzles*, the *Los Angeles Times*, *Micromath*, the *Puzzle a Day* memo pad and the *Weekend Telegraph*. While some of these are already classics, many of the puzzles have not been published elsewhere previously.

Puzzle enthusiasts of all ages will find here arithmetic problems, properties of digits; monetary problems; alpha-metics; Diophantine problems; magic figures; sequence problems; logical problems; geometric problems; physics problems; combinatorial problems; geographic problems; calendar problems; clock problems; dissection problems and verbal problems.

Editorial Review

From the Inside Flap

This is a collection of over 200 problems that David Singmaster composed since 1988. Many of them appeared in his puzzle columns or series.

About the Author

David Singmaster is an American mathematician who has lived in London since 1970. His interests include number theory, combinatorics, recreational mathematics and its history. He was one of the first mathematicians to write about Rubik's Cube and devised the now standard notation for it. Since 1987, he has contributed puzzles and puzzle columns to a number of magazines, newspapers and radio and TV programs.

Users Review

From reader reviews:

Christine Frazier:

What do you consider book? It is just for students because they're still students or the idea for all people in the world, the actual best subject for that? Only you can be answered for that query above. Every person has different personality and hobby for every other. Don't to be pressured someone or something that they don't want do that. You must know how great and important the book Problems for Metagrobologists:A Collection of Puzzles with Real Mathematical, Logical or Scientific Content (Problem Solving in Mathematics and Beyond). All type of book are you able to see on many solutions. You can look for the internet options or other social media.

David Black:

Information is provisions for anyone to get better life, information nowadays can get by anyone on everywhere. The information can be a expertise or any news even a problem. What people must be consider whenever those information which is within the former life are challenging to be find than now is taking seriously which one works to believe or which one the resource are convinced. If you receive the unstable resource then you understand it as your main information there will be huge disadvantage for you. All of those possibilities will not happen inside you if you take Problems for Metagrobologists:A Collection of Puzzles with Real Mathematical, Logical or Scientific Content (Problem Solving in Mathematics and Beyond) as your daily resource information.

Jack Bemis:

Your reading sixth sense will not betray you, why because this Problems for Metagrobologists:A Collection of Puzzles with Real Mathematical, Logical or Scientific Content (Problem Solving in Mathematics and Beyond) e-book written by well-known writer whose to say well how to make book which can be understand

by anyone who read the book. Written in good manner for you, still dripping wet every ideas and composing skill only for eliminate your personal hunger then you still hesitation Problems for Metagrobologists:A Collection of Puzzles with Real Mathematical, Logical or Scientific Content (Problem Solving in Mathematics and Beyond) as good book not simply by the cover but also by the content. This is one publication that can break don't evaluate book by its deal with, so do you still needing another sixth sense to pick that!? Oh come on your studying sixth sense already alerted you so why you have to listening to yet another sixth sense.

Sam Dickson:

Beside this specific Problems for Metagrobologists:A Collection of Puzzles with Real Mathematical, Logical or Scientific Content (Problem Solving in Mathematics and Beyond) in your phone, it may give you a way to get closer to the new knowledge or facts. The information and the knowledge you might got here is fresh from oven so don't end up being worry if you feel like an outdated people live in narrow town. It is good thing to have Problems for Metagrobologists:A Collection of Puzzles with Real Mathematical, Logical or Scientific Content (Problem Solving in Mathematics and Beyond) because this book offers to you personally readable information. Do you at times have book but you seldom get what it's about. Oh come on, that will not end up to happen if you have this within your hand. The Enjoyable set up here cannot be questionable, just like treasuring beautiful island. Techniques you still want to miss it? Find this book along with read it from at this point!
