Editorial Review

Review

'An excellent and invaluable resource for those interested in conducting qualitative research in the business and management field' -

Catherine Cassell

Professor of Organizational Psychology, Manchester Business School, UK

'This wonderful book corrects a multiplicity of misconceptions and gives much practical advice. I recommend it wholeheartedly not only for instructors and students of qualitative methods, but also for every business school dean, dean of research, member of a promotion and tenure committee, and member of an external review or accreditation committee'

M. Lynne Markus, The John W. Poduska

Sr. Professor of Information and Process Management, Bentley University

'Michael Myers seems to have pulled off the almost impossible challenge of producing a research methods text book that is easy for a student to read, but is backed by sufficient scholarly references to constitute a reliable reference in the field'

Professor Cathy Urquhart

Acting Head of Research MMU and Chair of Digital and Sustainable Enterprise, Manchester Metropolitan University
