### **Review**

"Sarah J. Shin's highly readable and insightful book takes the study of bilingualism in schools and society to a new level. She documents the dynamic ways in which globalization and human migration are affecting all forms of human communication including Internet use, advertising, and popular culture and, in lucid and engaging prose, draws out the implications of these 'global flows' for education and social policies. This book represents an immense accomplishment that will be greatly appreciated by educators and policy-makers alike."
