**Build Your Own Lisp** By Mr Daniel Holden

If you've ever wondered how to build your own programming language or wanted to learn C but weren't sure where to start, this is the book for you. In under 1000 lines of code you'll start building your very own programming language, and in doing so learn how to program in C, one of the world's most important programming languages. Along the way we'll learn about the weird and wonderful nature of Lisps, the unique techniques behind function programming, the methods used to concisely solve problems, and the art of writing beautiful code. Build Your Own Lisp is a fun and creative journey through a fascinating area of computer science, and an essential read for any programmer, new or old!

### **Editorial Review**

#### **About the Author**

Daniel Holden is a PhD student at Edinburgh University doing research into machine learning, and data driven approaches to character animation. He is a prolific C hacker with a flair for creative and interesting projects, that have gathered considerable attention in the open source community. As well as hacking on C, he enjoys writing short stories, constructing digital art, and game development.

### **Users Review**

#### **From reader reviews:**

##### **Raymond Dahms:**
