Contact! A Tactical Manual for Post Collapse Survival By Max Velocity

REVISED & EXPANDED SECOND EDITION This manual is the result of a detailed consideration of a societal collapse and the civil shift and aftermath that would impact individuals and families who are intent on survival. The purpose of this manual is to provide information to enhance the security, tactics, and survival skills of law-abiding citizens who are faced with civil disorder, lawlessness, violence, and physical threat in a post-collapse environment. The information in this manual is derived from training and experience gained from service with special operations forces (SOF) and subsequent employment as a security contractor in Iraq and Afghanistan. It is a distillation of tactics, techniques and procedures (TTPs) adapted to the threat and environment anticipated in this type of scenario, in order to provide the knowledge needed to survive in a world turned upside down. It is no longer just survival of the fittest but survival of those prepared. The manual will take you from self-defense as an individual, team and family, and on to tactics, techniques, procedures and training that can be used by tactical teams that you may need to form in order to survive or to resist tyranny. In a serious post-event scenario, one of total collapse with several months or years before recovery, families, groups and communities may be forced to create such tactical defense forces to protect personnel, loved ones and resources against hostile forces. There is something in this manual for both the tactical newbie and the military veteran. Authors Website: maxvelocitytactical.com Author's blog: maxvelocitytactical.com log Authors note on choosing Contact or Rapid Fire: Contact and Rapid Fire are not designed as sequels, but are aimed at different audiences. There is an amount of material, the main bulk of the tactical stuff, which is common to both books. It is not intended that you buy both, just one or the other depending on your requirements.

Editorial Review

About the Author

Website: maxvelocitytactical.com Blog: maxvelocitytactical.com log The author is a lifelong soldier with extensive military experience. He has served in both the British and US Armies. He served with British Special Operations Forces, mainly with the Parachute Regiment which is Britain's elite quick reaction force and which also provides support to the UK Tier 1 Special Forces, the Special Air Service. The author served on six operational deployments, including to Afghanistan immediately post-9/11, and also a tour training and selecting recruits for the Regiment. In explaining what the Parachute Regiment is, it is easiest to compare it in role to the 75th Ranger Regiment, although it is of course its own unique and elite force. He retired from the British Army in 2003. Following retirement, the author spent five years serving as a security contractor in both Iraq and Afghanistan. This included working on contract for the US Government in Iraq, a year of which was based out of Fallujah, the rest variously based out of Baghdad and country-wide, and also two years working for the British Government in Helmand Province and Kabul, Afghanistan. These roles were operational security roles that included exposure to multiple different training methods and operational schools of thought, as well as both high profile and low profile mobile operations across Iraq and Afghanistan. The author then joined the U.S. Army and trained as a Combat Medic and Civil Affairs Specialist, he is a U.S. Citizen and lives in the United States. The author is a family man with a strong interest in prepping. This comes from a desire to prepare for the worst while living to the best in our current society. This book springs from the author's ruminations on the need to keep his own family safe and survive any coming apocalyptic event, and a desire to share this knowledge with other law abiding folk. The intent is not at all to train you as a special ops team; much of the manual is written with the presence of young kids in mind. However, as the manual progresses it will give you the skills to train and operate a tactical team that will be able to conduct necessary operations beyond the family sphere.
