### H2O By Virginia Bergin

.27 is a number Ruby hates.

It's a number that marks the percentage of the population that has survived. It's a number that means she's one of the "lucky" few still standing. And it's a number that says her father is probably dead.

Against all odds, Ruby has survived the catastrophic onset of the killer rain. Two weeks after the radio started broadcasting the warning, "It's in the rain. It's fatal and there's no cure," the drinkable water is running out. Ruby's left with two options: persevere on her own, or embark on a treacherous journey across the country to find her father-if he's even still alive.

### Editorial Review

#### From School Library Journal

Gr 6 Up—How hard could it possibly be to avoid the rain? According to the account of Ruby Morris, it's a lot harder than one might think: Ruby hails from the wet and dreary United Kingdom. After an imminent meteor strike is avoided, events lead to an alien bacterium-laced rain that is fatal and contagious. Stranded and devoid of any parental guidance, Ruby must cross vast distances and make choices even when no right answer exists. The first-person narrative allows for a unique perspective. The story and language will provide readers with an international scope and convey the tragic impact of the apocalyptic events. Young teens will find the protagonist entertaining and relatable. The beauty of the text lies in Bergin's ability to realistically explore the horrors of the world she's created. Attention to detail, coupled with a very strong main character, will draw readers in and make them think twice about leaving the house—at least not before checking the sky for signs of rain.—Chad Lane, Easton Elementary, Wye Mills, MD

#### Review

"Attention to detail, coupled with a very strong main character, will draw readers in and make them think twice about leaving the house—at least not before checking the sky for signs of rain." - School Library Journal

"The diary-style narration emphasizes Ruby's distinctly teenage response to society's end and her strong, spontaneous voice lends a touch of dark comedy to the post-apocalyptic doom and gloom... watching Ruby draw strength from her ability to tell her own story is as inspiring as it is harrowing" - The Horn Book Magazine

"A gripping concept... Ruby's narrative voice is exceptional." - The Bulletin

"This entry in the teen dystopian genre brings life and humor to an otherwise dark situation... a great, high-interest read for contemporary teens." - VOYA

#### About the Author

Virginia Bergin works as a writer for TV, eLearning, and corporate projects. Most recently, she has been working in online education, creating interactive courses for The Open University. She lives in Bristol, England.

### Users Review

#### From reader reviews:

##### **Marie Boyd:**
