**How to Learn the Alexander Technique: A Manual for Students/G6517** By Barbara Conable

A primer for students of the Alexander Technique, a well-known method for improving freedom and ease of movement and physical coordination. This book provides the first authoritative account of William Conable's concept, Body Mapping, the study of how our ideas about our bodies affect our experience and movement. This concept is integrated with a lucid explanation of the Alexander Technique that clarifies and simplifies the task of teaching and learning the Technique.

### **Editorial Review**

#### **Review**

"Filled with powerful insights and original thinking, the Conable book is a superb, practical guide for Alexander Students" Michael Gelb "Not only does it offer meaty, practical information for students; it also provides valuable insights for teachers....The best explanation of primary control and downward pull that I've yet seen....A treasure trove...for any Alexander teacher working with students in activity....A healthy extension of F.M. [Alexander]'s work." Robert Cohen, ACAT News "This is a book to read with enthusiasm and attentiveness. It could influence profoundly a teacher's effectiveness with students....A book of immediate usefulness to the performer and teacher, and one which will stimulate productive self-evaluation and awareness. It is persuasive and positive in tone, easy to read and wonderfully enticing." --Thomas Mastroianni, American Music Teacher

#### **About the Author**

Barbara Conable is an Alexander teacher of 23 years experience and a teaching member of the North American Society of Teachers of the Alexander Technique and Alexander Technique International. She has taught at the Ohio State University and the Cincinnati Conservatory and is now President of Andover Educators. She is an active poet and the author and editor of several books about the Alexander Technique.
