**Dismantling the Big Bang** By Alex Williams, John Hartnett

- Why did Ptolemy's theory cause problems for the church?
- What is the big secret concerning the "Age" of the earth?
- Why do many scientists reject the use of design in explaining origins?

The seemingly absurd idea that all matter, energy, space, and time once exploded from a point of extreme density has captured the imagination of scientists and laypersons for decades. The big bang has provided a central teaching for the eons of time of "cosmic evolution", undermining the history and cosmology of the Bible.

It is a theory that fails, even violating the very physical laws on which it is purportedly based. In this easy-to-read format, authors Alex Williams and John Hartnett explode this naturalistic explanation for the universe, and show that the biblical model provides a far better explanation of our origins. This fully indexed, illustrated analysis of the big bang theory is an invaluable help in understanding and countering a world view that is as chaotic and destructive as its name implies.

## **Editorial Review**

### **About the Author**

Dr. John Hartnett received both his B.Sc. and his Ph.D. with distinction from the University of Western Australia. He currently works as an ARC QE II post-doctoral research fellow with the frequency standards and metrology research group there. He has published more than 98 scientific papers in secular journals and has two patents. Alex Williams is a part-time science writer for Answers in Genesis. With a master of science degree in radioecology and a licentiate in theology, his career spans 26 years as a government botanist and 7 years in missionary work. He is married to Barbara and they reside in Beeliar, Western Australia.

## **Users Review**

### **From reader reviews:**

#### **Debbie Luken:**

Information is provisions for individuals to get better life, information currently can get by anyone from everywhere. The information can be a know-how or any news even an issue.
