The Midnight Assassin: Panic, Scandal, and the Hunt for America's First Serial Killer By Skip Hollandsworth

A sweeping narrative history of a terrifying serial killer--America's first--who stalked Austin, Texas in 1885

In the late 1800s, the city of Austin, Texas was on the cusp of emerging from an isolated western outpost into a truly cosmopolitan metropolis. But beginning in December 1884, Austin was terrorized by someone equally as vicious and, in some ways, far more diabolical than London's infamous Jack the Ripper. For almost exactly one year, the Midnight Assassin crisscrossed the entire city, striking on moonlit nights, using axes, knives, and long steel rods to rip apart women from every race and class. At the time the concept of a serial killer was unthinkable, but the murders continued, the killer became more brazen, and the citizens' panic reached a fever pitch.

Before it was all over, at least a dozen men would be arrested in connection with the murders, and the crimes would expose what a newspaper described as "the most extensive and profound scandal ever known in Austin." And yes, when Jack the Ripper began his attacks in 1888, London police investigators did wonder if the killer from Austin had crossed the ocean to terrorize their own city.

With vivid historical detail and novelistic flair, *Texas Monthly* journalist Skip Hollandsworth brings this terrifying saga to life.

Editorial Review

From School Library Journal

Before Jack the Ripper mutilated prostitutes in the dark corners of London in the late 19th-century, Austin, TX, was besieged by a vicious killer whose victims were African American servants. He cut up women with an axe to the head and left them bloody in their beds. Husbands of the first three victims were arrested in succession, even though they had alibis and swore their innocence. Racism delayed justice for a year. Black men became so terrified of the police that they rubbed their feet and legs with asafoetida, a natural paste slaves had used when running away from their masters to throw off bloodhounds. Nicknamed "the midnight assassin," the murderer left an eyewitness, a nine-year-old boy who thought the man who killed his mother—the first victim—was white, but no one listened. Then on New Year's Eve, in 1885, two prominent white women were hacked to death within an hour of each other, and a wider search was undertaken. This is a painstakingly researched book written by a Texas native that examines prejudices, which still keep justice at bay. **VERDICT** This work introduces students to a grisly piece of American history and models footnote and bibliographic research. A must-have.—Georgia Christgau, Middle College High School, Long Island City, NY
