## **Editorial Review**

### **Review**

“This is a remarkable editorial achievement. By bringing together some of the best known writers on global education policy, this volume does the international educational community an invaluable service. Those wishing to deepen their understanding of the complex mechanisms and processes that drive education policy in this new global era will find much in this book that will engage, challenge, and provoke them. An essential overview for students and seasoned researchers alike.”

**Ronald G. Sultana, Euro-Mediterranean Centre for Educational Research, University of Malta**

“This authoritative Handbook, edited by leading international scholars, brings together a veritable Who’s Who from the world of comparative education. It also includes chapters by promising young scholars from many parts of the world. Core issues relating to education’s role in the global polity, key actors, and future directions are elegantly knitted together with a thought provoking commentary for each section by the four editors.”

**Ruth Hayhoe, Ontario Institute for Studies in Education, University of Toronto**

“A cutting-edge resource for Chinese education researchers and policy makers supporting interaction with the international education community. At a time when China is receiving more and more attention worldwide, there is an urgent need for us to better understand and then contribute to global education governance. It also shows special value of developing comparative education in China since we are moving towards more international and development studies.”

**TENG Jun, Faculty of Education, Beijing Normal University**

“The editors and contributors are eminent scholars, who have been working in the research of the education policies for years. They profoundly understand and are able to write about global changes in the field. This book is essential reading for everyone with an interest not only in education policy research but also more widely across education policy and international policy.”

**Risto Rinne, Center for Research on Lifelong Learning and Education and Department of Education, University of Turku**

### **From the Back Cover**

Over the past decade, the influence of global institutions and actors on domestic education policy has increased significantly. With contributions from an international cast of established and emerging scholars at the forefront of the field, *The Handbook of Global Policy in Education* provides a comprehensive and provocative overview of current research on the interplay between global policy and education. The handbook has been strategically divided into four thematic sections each featuring a thorough introduction designed to both facilitate readers’ understanding of the topic and to highlight broader links to interdisciplinary global policy scholarship. The first section offers a comprehensive survey of current debates surrounding the role of education in global polity, while the second section highlights key transnational policy actors. The third section focuses on introducing and elucidating research methodologies, while the fourth section outlines global agendas for education reform.

Written in an accessible and engaging style, *The Handbook of Global Policy in Education* will be a vital

resource for education scholars, social scientists, and domestic and international policy practitioners alike.
