500 Freshwater Aquarium Fish: A Visual Reference to the Most Popular Species From Brand: Firefly Books

Expert advice on freshwater aquarium fish.

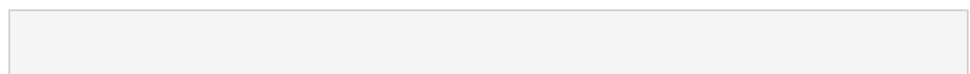

Illustrated in full color, this comprehensive reference includes 500 of the most popular freshwater aquarium fish. It provides concise at-a-glance information on their behavior, diet and breeding, along with a recommended aquarium setup. Practical and well organized, this book is tailored to the needs of a wide range of freshwater-aquarium hobbyists.

A key decision for the aquarium owner, and also one of the most fun to make, is choosing the fish for a tank. **500 Freshwater Aquarium Fish** is a "window shopping" trip, with an expert alongside to offer crucial advice. This thorough directory details every appropriate species. While most of the fish featured require a heated aquarium, there are other popular varieties, such as goldfish, that can be kept in an unheated one.

With more than 500 color photographs, the book is organized by major fish groups, among them:

- Cichlids, including angelfish and discus
- Catfish
- Cyprinids, including barbs, danios, koi and goldfish
- Characoids, including tetras, neons and piranhas
- Oaches and suckers
- Gouramis, including bettas, paradise fish and snakeheads
- Rainbow fish and blue-eyes
- Livebearers, including mollies and platies.

This comprehensive and useful reference, edited by a highly respected expert, will be welcomed by amateur fishkeepers of any age and expertise.

Editorial Review

Review

This is a beautiful book, lovingly written and illustrated, carefully compiled with information suitable for the beginner or the longtime enthusiast. (Linda Turk *Thunder Bay Chronicle-Journal* 2007-01-27)

Any home or library collection strong in aquarium references -- and many a fish store -- will find this packed with in-depth detail perfect for setting up an aquarium. (Diane C. Donovan *The Midwest Book Review*)

For users looking for specific information on freshwater aquarium fish this will be a useful and interesting resource. (Shannon Graff Hysell *American Reference Books Annual*)

About the Author

Greg Jennings has been actively involved in fish-keeping for more than 40 years. He has visited many of the locations around the world where popular hobbyist species originate and, through fellow enthusiasts in the international community, keeps up with the very latest developments and techniques.

Sample Entry

[each entry is illustrated by a color photograph]

CHARACOIDS

Dwarf Pencilfish

Nannostomus marginatus

This is a delightful species that, despite its small size, creates a sparkling display. It has vivid red coloration on its fins (except the caudal fin), three prominent, dark-brown bands on its body, and a splash of several red scales along the midpoint of the central band. This species lacks an adipose fin.

Family: Lebiasinidae

Subfamily: Pyrrhulinae

Distribution: Guyana, Suriname, and (possibly) lower reaches of the Amazon

Size: Around 1 1/2 in (3.5cm).

Behavior: Peaceful shoaler, somewhat more timid than *N. beckfordi*; should not be kept with lively tankmates

Aquarium: Thickly planted and with subdued lighting. Soft, slightly acid, nitrate-free water preferred (any changes in conditions must be carried out gradually), as is tannin-stained water. Temperature range: 73-81°F (23-27°C)

Breeding: Subdued lighting, soft, acid water and fine-leaved vegetation required. Water temperature: around 86°F (30°C). Eggs are scattered among the vegetation and may be eaten by the spawners. Hatching takes 1-3 days.

Users Review

From reader reviews:

Raymond Bailey:

Have you spare time for the day? What do you do when you have much more or little spare time? Yep, you can choose the suitable activity intended for spend your time.
