### Can't You Sleep, Little Bear? By Martin Waddell

"I don't like the dark," said Little Bear.

"What dark?" said Big Bear.

"The dark all around us," said Little Bear.

In this tender account of a sleepless night in the bear cave, Big Bear sets out with all his patience and understanding to show Little Bear that the dark is nothing to be afraid of. When all the lanterns in the cave aren't enough to quell Little Bear's troubled emotions, Big Bear offers—in a final loving gesture—nothing less than the bright yellow moon and the twinkling stars! More comforting than even the best of lullabies, this bedtime story is destined to become a classic.

#### From Publishers Weekly

Break out the candles and cake: this season, old favorites mark special occasions in an array of anniversary editions. A gold-embossed cover and a limited-edition print suitable for framing embellish the 10th-anniversary edition of *Can't You Sleep Little Bear?* by Martin Waddell, illus. by Barbara Firth. PW wrote of this tale of Big Bear and exuberant toddler Little Bear settling down on a wintry night, "Move over, *Goodnight Moon*. Margaret Wise Brown's enduring bedtime classic may have found a worthy successor."

#### From School Library Journal

PreSchool-- This warm, charming look at a small bear's fear of the dark is right on target for the preschool set. As Big Bear sits by the cozy fire trying to read, Little Bear, frightened of ``the dark all around us," cannot fall asleep. Sympathetic Big Bear lights lanterns in several sizes, attempting to banish the dark from the corners of their cave, but Little Bear wants more. Finally, when he is taken outside, cuddled close, and shown a full moon and twinkling stars, sleep comes instantly. Big Bear's compassion for his small charge is most evident in his loving facial expressions and in the warmth of the full-page watercolor and soft pencil illustrations. Blue arched borders around pages showing indoor scenes give the impression of looking into the cave from the dark outside; they provide a clear contrast to the wide-open snowy woodland settings at the book's beginning and end. Little Bear is the epitome of everychild, persistently (but endearingly) pestering for a little more attention and one last hug. The soft banter between the two characters, combined with a touch of repetitive phrasing, add to the book's strong child appeal. It's bound to become a beloved bedtime ritual in many households. --Susan Scheps, Shaker Heights Public Library, OH

#### From Kirkus Reviews

In this comforting story about a big bear trying to help a little bear overcome his fear of the dark, both the affectionate humor and the beguiling variations on a repetitive theme are reminiscent of Minarik's classic *Little Bear* (1957); but this British team gives a fresh flavor to the old formula. For one thing, these bears live in a cave, comfortably furnished but just the site for lurking shadows. Big Bear (who looks like an informally updated version of one of L. Leslie Brooke's amiable *Three Bears*) is trying to read, but willingly fetches first one and then another and another ever-larger lantern to dispel the dark that troubles the restless little bear; finally, they go into the real dark outside to admire the full moon and Little Bear drifts off to sleep, safe at last in Big Bear's encompassing arms. Waddell's charming narration has the grace and economy of old nursery tales. Using frames of mellow slate blue, Firth sets her pencil and watercolor illustrations beneath gentle arches that suggest the cave's interior, comfortably accommodating the text among vignettes and larger spreads. As in Brooke's illustrations, there are delightful domestic details to explore, but the bears are best of all. Perfect for bedtime, or anytime.
