## A Handbook for the Art and Science of Teaching (Professional Development) By Robert J. Marzano, John L Brown

In A Handbook for the Art and Science of Teaching, Robert J. Marzano and John L. Brown help you explore and refine your instructional strategies, always with the goal of enhancing student achievement. As a companion volume to Marzano's The Art and Science of Teaching, the handbook is intended to be a guide for individual teachers, study groups, and professional developers working together to improve their teaching. It is organized into 25 modules, each related to one of the 10 design questions introduced in the earlier book. Each module begins with a series of reflection questions and concludes with a set of self-assessment questions that allow the reader to determine areas that might need further work. At the heart of each module are specific strategies for addressing the key components of effective teaching. Dozens of examples illustrate the strategies in action in elementary and secondary classrooms, in all subject areas. The strategies provide a thorough grounding in the science of teaching. How a teacher chooses to implement them constitutes the art of teaching. Both elements are necessary for improving student achievement and creating successful schools. For anyone committed to developing a wide range of teaching skills, this handbook is a welcome road map to best practices.
