PostgreSQL 9 Administration Cookbook - Second Edition By Simon Riggs, Gianni Ciolfi, Hannu Krosing, Gabriele Bartolini

Over 150 recipes to help you run an efficient PostgreSQL database in the cloud

About This Book

- Administer and maintain a healthy database
- Monitor your database to ensure maximum efficiency
- Tips and tricks for speedy backup and recovery

Who This Book Is For

Through example-driven recipes, with plenty of code, focused on the most vital features of the latest PostgreSQL version (9.4), both administrators and developers will follow short, specific guides to understand and leverage useful Postgre functionalities to create better and more efficient databases.

What You Will Learn

- Implement PostgreSQL features for reliability and performance
- Harness the power of the latest PostgreSQL 9.4 features
- Manage PostgreSQL versions 9.0, 9.1, 9.2, 9.3, and 9.4
- Advanced technical tips for experienced users
- Explore best practices for planning and designing live databases
- Select and implement robust backup and recovery techniques
- Concise and clear guidance on replication and high availability
- Latest details on Logical Replication and Bi-Directional Replication

In Detail

PostgreSQL is a powerful, open source, object-relational database system, fast becoming one of the world's most popular server databases with an enviable reputation for performance and stability and an enormous range of advanced features.

Starting with short and simple recipes to get you back up and running with an exploration of the ins and outs of your database, you will soon dive into core features such as configuration, server control, tables, and data. This is a practical guide aimed at giving sysadmins and database administrators the necessary toolkit to be able to set up, run, and extend powerful databases with PostgreSQL.

Editorial Review

About the Author

Simon Riggs

Simon Riggs is the CTO of 2ndQuadrant and an active PostgreSQL committer. He has contributed to PostgreSQL as a major developer for more than 10 years, having written and designed many new features in every release over that period. His feature credits include replication, performance, business intelligence, management, and security. Under his guidance, 2ndQuadrant is now a leading developer of open source PostgreSQL and a platinum sponsor of the PostgreSQL Project, serving hundreds of clients in USA, Europe, Asia-Pacific, the Middle East, and Africa. Simon is a frequent speaker at many conferences and is well known for his speeches on PostgreSQL Futures and different aspects of replication. He has worked with many different databases as a developer, architect, data analyst, and designer with companies across USA and Europe for nearly 30 years.

Gianni Ciolfi

Gianni Ciolfi is a principal consultant at 2ndQuadrant Italia, where he has been working since 2008 as a developer, consultant, and trainer. He has spoken at PostgreSQL conferences in Europe and abroad, and his other IT skills include functional languages and symbolic computing. Gianni has a PhD in mathematics, and is the author of published research on Algebraic Geometry, Theoretical Physics, and Formal Proof Theory. He previously worked at the University of Florence as a researcher and teacher. Gianni has been working on free and open source software for almost 20 years. From 2001 to 2004, he was a cofounder and the president of PLUG, short for Prato Linux User Group. He organized many sessions of the Italian PostgreSQL conference, and in 2013, he was elected to the board of ITPUG, the Italian PostgreSQL Users Group. He currently lives in London with his son. His other interests include music, drama, poetry, and sport?athletics in particular, where he competes in combined events.

Hannu Krosing

Hannu Krosing is a principal consultant at 2ndQuadrant and a technical advisor at Ambient Sound Investments. As the original database architect at Skype Technologies, he was responsible for designing the SkyTools suite of replication and scalability technology. He has worked with and contributed to the PostgreSQL project for more than 12 years.

Gabriele Bartolini

Gabriele Bartolini is a long-time open source programmer, a principal consultant with 2ndQuadrant, and an active member of the international PostgreSQL community. Gabriele has a degree in statistics from the University of Florence. His areas of expertise are data mining and data warehousing, and he has worked on web traffic analysis in Australia and Italy. He currently lives in Prato, a small but vibrant city located in the northern part of Tuscany, Italy. His second home is Melbourne, Australia, where he studied at Monash University and worked in the ICT sector. Gabriele's hobbies include playing his Fender Stratocaster electric guitar and "calcio" (football or soccer, depending on which part of the world you come from).

Users Review

From reader reviews:

William Stewart:

Book is usually written, printed, or outlined for everything. You can learn everything you want by a publication. Book has a different type. As it is known to us that book is important factor to bring us around the world. Beside that you can your reading talent was fluently. A book PostgreSQL 9 Administration Cookbook - Second Edition will make you to be smarter. You can feel more confidence if you can know about anything. But some of you think that will open or reading a new book make you bored. It is far from make you fun. Why they may be thought like that? Have you in search of best book or appropriate book with you?
