### Aftermath (Volume 1) By Cara Dee

Austin Huntley and Cameron Nash are like night and day. One is a family man, works in a nice office, drives an expensive car, and is content to be content. The other one is an antisocial car mechanic with a short fuse. Some things don't change. Others definitely do. After surviving a five-month long kidnapping together, they struggle to return to normalcy, all while realizing that they're more drawn to each other than they ever could've imagined. "I know I'm not normal, but I'm not fucking stupid." "Define normal," Austin countered quietly, meeting Cam in the doorway. "And for not being normal, you're the only person in the world who makes sense right now. What does that say about me?" Warning: This story contains violence and scenes of an explicit, erotic nature between two men and is intended for adults, 18+.

### **Editorial Review**

#### **About the Author**

There aren't many things better than picking up my Kindle and getting completely sucked into a whole new world—where words morph into images and characters' moods suddenly reflect my own. Aside from good plot and writing, for me, it boils down to relatable characters. As a writer, I'm not finished until the men and women in my books come to life, until I can see them as real people, until I can connect with them. Which means I write what I want to read: everyday heroes and heroines who have the same struggles we all do. They evolve, have flaws, make mistakes and amends, learn, and find the endings they fight for. Those are the characters who take the readers on a journey away from work, laundry, grocery shopping, and to-do lists. When I'm not writing, researching, or brainstorming, I'm either planning my next trip (never-ending bucket list!), reading, watching hockey, or spending time with family and friends.
