Astro Psychology By Karen Hamaker-Zondag

Astrology is an ancient art, but its truths are timeless. The validity of its claims are slowly being realized through the application of contemporary disciplines. This book is part of that process and examines the traditional wisdom of astrology in the light of Jungian psychology, revealing the horoscope as an accurate picture of our psychic structure and a key to self-knowledge and personal growth. Beginning with a lucid analysis of Jung's terminology - including archetypes, the collective unconscious and the theory of synchronicity - Karen Hamaker-Zondag goes on to explore in depth the striking correspondence between Jung's theory of psychological types and the traditional astrological elements. Astro-Psychology is an important contribution to astrological studies, a brilliant synthesis that establishes the continuing relevance of astrology to the twentieth century.
