Simulation Modeling with Simio - A Workbook By Jeffrey A. Joines, Stephen D. Roberts

Simulation Modeling with Simio provides and introduction to simulation modeling using Simio. It is written in what might be called a participatory style. You don't sit and read the book without a computer loaded with Simo.

Simulation Modeling With Simio expects your active participation in using Simio as you turn the pages. We think that simulation is not a spectator sport; you have to do it to develop skill with it. You develop that skill by practice modeling -- the more you practice, the better you become.

Editorial Review

About the Author

Stephen D. Roberts is the A. Doug Allison Distinguished Professor in the Edward P. Fitts Department of Industrial and Systems Engineering at NC State University. Professor Roberts received his Ph.D., M.S.I.E., and B.S.I.E. (with Distinction) from the School of Industrial Engineering at Purdue University. He has been a faculty member at NC State University since 1990, serving nine years as Department Head of the Department of Industrial Engineering and three years as Interim Director of the Integrated Manufacturing Systems Engineering Institute.

He has held Kaiser Aluminum Fellowship and a NDEA Title IV Fellowship. He received the AIIE 1967 Graduate Research Award, Outstanding Paper Award at the 12th Annual Simulation Symposium, the Pritsker and Associates Outstanding Undergraduate Teaching Award in the Purdue School of Industrial Engineering, the CA Anderson Outstanding Teacher in the NCSU Department of Industrial and Systems Engineering, the Outstanding Teacher from the NCSU college of Engineering, membership of the NCSU Academy of Outstanding Teachers, the Gertrude M. Cox Award for Transformative projects from NC State University (with Professor Joines), the Distinguished Service Award from iINFORMS College on Simulation, and has served as member, Vice- Chair, and Chair of the Winter Simulation Conference (WSC) Board of Directors representing TIMS (now INFORMS) College on Simulation, and Secretary, Vice-President/Treasurer President, and Past-President of the WSC Foundation Board. He was the Proceeding Editor for the 1983W SC, the Associate Program Chair in 1985, and Program Chair in 1986. He has been a WSC presenter session chair, track coordinator, and keynote speaker.

Jeffrey A. Joines is an Associate Professor and the Associate Department Head of Undergraduate Programs in the Department of Textile Engineering, Chemistry, and Science at NC State University. He received a B.S. in Electrical Engineering and B.S. in Industrial Engineering, a M.S in industrial Engineering, and Ph.D, in Industrial Engineering, all from NC State University. He received the 1997 Pritsker Doctoral Dissertation Award from the Institute of Industrial Engineers. His research interests include supply chain optimization utilizing computer simulation and computational optimization methods. Dr. Joines teaches graduate and undergraduate classes in computer information systems, computer-based modeling in Excel and VBA, and computer simulation for Six-Sigma. Dr. Joines has also teaches industry programs in the areas of Design for Six Sigma, Simulation and Six Sigma, and Data Management to assist in Six Sigma through the Textile Extension programs Six Sigma Black Belt and Master Black Belt program.

Dr. Joines is involved in utilizing technology in the classroom and how it impacts problem solving. He was awarded the NC State University Outstanding Teaching Award and College of Textiles Outstanding Teacher which allowed him to become a member of the Academy of Outstanding Teachers. In 2009, Dr. Joines (along with Professor Roberts) was awarded the Gertrude Cox Award for Innovative Excellence in Teaching and Learning with Technology for Transformative Large Scale projects.

Users Review

From reader reviews:

Kevin Gans:

Information is provisions for individuals to get better life, information these days can get by anyone with everywhere. The information can be a information or any news even a concern. What people must be consider while those information which is inside former life are challenging to be find than now is taking seriously which one would work to believe or which one the resource are convinced. If you get the unstable resource then you have it as your main information it will have huge disadvantage for you. All of those possibilities will not happen throughout you if you take Simulation Modeling with Simio - A Workbook as your daily resource information.

Denise Lee:

Reading can called imagination hangout, why? Because when you are reading a book specially book entitled Simulation Modeling with Simio - A Workbook your head will drift away trough every dimension, wandering in each and every aspect that maybe not known for but surely will end up your mind friends. Imaging each word written in a reserve then become one application form conclusion and explanation in which maybe you never get prior to. The Simulation Modeling with Simio - A Workbook giving you an additional experience more than blown away your mind but also giving you useful information for your better life with this era. So now let us demonstrate the relaxing pattern this is your body and mind will be pleased when you are finished examining it, like winning an activity. Do you want to try this extraordinary paying spare time activity?

Edwin Bernal:

Are you kind of occupied person, only have 10 or maybe 15 minute in your day to upgrading your mind ability or thinking skill possibly analytical thinking? Then you have problem with the book than can satisfy your small amount of time to read it because this time you only find book that need more time to be go through. Simulation Modeling with Simio - A Workbook can be your answer because it can be read by an individual who have those short free time problems.

Janet Baltimore:

A lot of publication has printed but it differs from the others. You can get it by net on social media. You can choose the very best book for you, science, witty, novel, or whatever by simply searching from it. It is referred to as of book Simulation Modeling with Simio - A Workbook. You'll be able to your knowledge by it. Without leaving behind the printed book, it may add your knowledge and make you happier to read. It is most important that, you must aware about e-book. It can bring you from one place to other place.
