Disruptive Technologies, Innovation and Global Redesign: Emerging Implications By Ndubuisi Ekekwe

In the last few years, most parts of the world have morphed into an electronically interdependent economic unit where a disruption in one marketplace affects the others. New technologies have emerged, transforming the ways we do business and, consequently, redesigning the world. Innovation in disruptive technologies pushes new and more agile firms to set new benchmarks and forces established companies to revisit existing models or re-invent themselves to stay competitive.

Disruptive Technologies, Innovation and Global Redesign: Emerging Implications provides case studies as well as practical and theoretical papers on the issues surrounding disruptive technologies, innovation, global redesign. This book will be a useful reference for academics, students, policymakers and professionals in the fields of emerging and disruptive technologies, innovation, economic planning, technology and society, technology transfer, and general technology management.

Editorial Review

About the Author

Ndubuisi Ekekwe, a regular blogger at Harvard Business Review, holds two doctoral and four master's degrees, including a PhD in electrical and computer engineering from the Johns Hopkins University and MBA from University of Calabar, Nigeria. During this MBA and Doctor of Management program, he specialized on Technology Management and Competitiveness. He founded First Atlantic Semiconductors & Microelectronics Ltd, African Institution of Technology, and Ultinet Systems. Dr. Ekekwe edited *Nanotechnology and Microelectronics: Global Diffusion, Economics and Policy* which received IGI Global 2010 "Book of The Year" Award. He is also an author of two books on electrochemistry and microelectronics. An Adjunct Professor of Engineering with Babcock University, Nigeria, he is a player in the U.S. semiconductor industry where he develops innovative microchips; he invented a microcontroller for medical robots. A recipient of 17 fellowships/scholarships, he graduated top of his class with BEng in electrical and electronics engineering (Aug. 1998) from Federal University of Technology, Owerri, Nigeria. He last held the title of Banking Executive with Diamond Bank Lagos and served in the United States National Science Foundation ERC/CISST E&D committee for four years. Prof Ekekwe has been invited as a speaker in Wharton Business School, Harvard Business School, Brown University, among others. He currently advises five African governments on technology and entrepreneurship.

Nazrul Islam is a Lecturer in Innovation and Operations Management at the School of Management and Business, Aberystwyth University and a Visiting Lecturer at Middlesex University Business School, London, UK. He has previously been appointed and taught in Cardiff University, Tokyo Institute of Technology and University of Dhaka. He received his Doctorate in the area of Innovation Management focusing Nanotechnology. Dr. Islam teaches Research Methods, Innovation and Operations Management to MBA and Undergraduate students. His areas of research interest include the management of emerging and disruptive technology innovations (e.g. nanotechnology, consumer electronics, and hydrogen production technologies), systems of innovation, technology forecasting and roadmapping, assessment of technology readiness. Dr. Islam serves as a peer-reviewer to the UK research council (EPSRC) and for many international journals. He has authored over 30 refereed journals and conference papers including several books on the topic and his works have been published in *Technovation, Technological Forecasting and Social Change, Science and Public Policy*. Dr. Islam's publications have received academic awards including the '*Pratt & Whitney Canada Best Paper Award*' in Innovation Management. In recognition of his academic excellence, he featured in *Marquis Who's Who in the World* (26th Ed. 2009) and has won the '*Channel S Award 2010*' from London in the category of Achievement in Education, Research and Teaching in the UK. Dr. Islam has frequently delivered keynote speech, given invited talks, and presented papers in international conferences worldwide. He is an associate member of Institute of Nanotechnology, a member of International Association of Management of Technology (IAMOT) and a member of International Society for Professional Innovation Management (ISPIM).

Users Review

From reader reviews:

John Harris:

With other case, little men and women like to read book Disruptive Technologies, Innovation and Global Redesign: Emerging Implications. You can choose the best book if you appreciate reading a book. Provided that we know about how is important some sort of book Disruptive Technologies, Innovation and Global Redesign: Emerging Implications. You can add understanding and of course you can around the world with a book. Absolutely right, since from book you can realize everything! From your country right up until foreign or abroad you may be known. About simple issue until wonderful thing you are able to know that. In this era, we are able to open a book or even searching by internet gadget. It is called e-book. You should use it when you feel bored stiff to go to the library. Let's examine.

Charles Frye:

This Disruptive Technologies, Innovation and Global Redesign: Emerging Implications book is not ordinary book, you have after that it the world is in your hands. The benefit you get by reading this book is information inside this reserve incredible fresh, you will get info which is getting deeper a person read a lot of information you will get. This specific Disruptive Technologies, Innovation and Global Redesign: Emerging Implications without we realize teach the one who reading it become critical in imagining and analyzing. Don't be worry Disruptive Technologies, Innovation and Global Redesign: Emerging Implications can bring any time you are and not make your tote space or bookshelves' turn out to be full because you can have it in the lovely laptop even telephone. This Disruptive Technologies, Innovation and Global Redesign: Emerging Implications having good arrangement in word in addition to layout, so you will not really feel uninterested in reading.

Wendell Radford:

A lot of people always spent their own free time to vacation or go to the outside with them friends and family or their friend. Do you realize? Many a lot of people spent that they free time just watching TV, or perhaps playing video games all day long. If you need to try to find a new activity that is look different you can read a book. It is really fun in your case. If you enjoy the book you read you can spent the entire day to reading a e-book. The book Disruptive Technologies, Innovation and Global Redesign: Emerging Implications it is very good to read. There are a lot of folks that recommended this book. These people were enjoying reading this book. In the event you did not have enough space to develop this book you can buy typically the e-book. You can m0ore simply to read this book out of your smart phone. The price is not very costly but this book has high quality.

Gloria Quinones:

That guide can make you to feel relax. This book Disruptive Technologies, Innovation and Global Redesign: Emerging Implications was multi-colored and of course has pictures on there. As we know that book Disruptive Technologies, Innovation and Global Redesign: Emerging Implications has many kinds or variety. Start from kids until youngsters. For example Naruto or Detective Conan you can read and feel that you are the character on there. So , not at all of book tend to be make you bored, any it can make you feel happy, fun and rest. Try to choose the best book for you and try to like reading that.
