### European Colonialism since 1700 (New Approaches to European History)

By James Lehning

This masterful synthesis provides a much-needed, complete survey of European colonialism from 1700 to decolonization in the twentieth century. Written by an award-winning author, this advanced undergraduate and graduate level textbook bridges, for the first time, the early modern Atlantic empires and the later Asian and African empires of 'high imperialism'. Viewing colonialism as a phenomenon of contact between Europe and the rest of the world, the author takes an 'entangled histories' approach, considering the surprising ways in which the imperial powers of Spain, Portugal, Great Britain, France and the Netherlands displayed their identities in colonial settings, as much as in their imperial capitals. The author illuminates for students the common themes of colonial government, economic development and cultural contact across empires, and reveals the ways in which these themes played out, through contrast of the differing development, structure and impact of each empire.

### **Editorial Review**

#### **Review**

"Maintaining both a comparative and transnational focus, [Lehning] offers a detailed consideration of the social, economic and cultural changes wrought on societies and communities by the varied impacts of colonial rule. The result is a refreshingly ambitious history that, among other things, will allow students to connect North and South American colonial encounters, ideas and arguments."

Martin Thomas, Professor of History, University of Exeter

"This eagerly anticipated book fills a gaping hole in the literature on European colonialism. It is an impressive synthesis of the diversity of colonial regimes and encounters across the globe, both on land and on the oceans. The author has incorporated an enormous amount of scholarship, including recent trends in imperial history and postcolonial studies ... masterfully weaving together political, economic, social, and cultural history with great breadth and nuance."

Jeffrey Auerbach, Professor of History, California State University, Northridge

"Recommended."
