Pro Vim By Mark McDonnell

Pro Vim teaches you the real-world workflows, tips, and tricks of this powerful, terminal-based text editor. This book covers all the essentials, as well as lesser-known but equally powerful features that will ensure you become a top-level performant and professional user, able to jump between multiple sessions while manipulating and controlling with ease many different documents and programming files. With easy-to-digest chapters on all the areas you need to learn, this book is a key addition to your library that will enable you to become a fast, efficient user of Vim.

Using this book, you will learn how to properly configure your terminal environment and work without even touching the mouse. You will become an expert in how Vim actually works: how buffers and sessions work, automation through Macros and shell scripting, real-world workflows, and how to work efficiently and fast with plugins and different themes. You will also learn practical, real-world tips on how to best utilize Vim alongside the terminal multiplexer tmux; helping you to manage files across multiple servers and terminal sessions. Avoid common pitfalls and work with best practice ways to efficiently edit and control your files and sessions from the terminal interface.

Vim is an advanced power tool that is commonly recognized as being difficult to learn, even for experienced developers. This book shows you how to become an expert by focusing on not only the fundamentals of how Vim works, but also by distilling the author's own experiences learning Vim into an easy-to-understand and follow guide. It's time to bring your programming, editing, and workflow skills up to the professional level - use *Pro Vim* today.

Editorial Review

About the Author

London based software engineer, Mark McDonnell works at the BBC (currently as a senior core engineer for their biggest product: BBC News). Over the past 15 years Mark has worked his way up the ranks of the agency lifestyle. Along the way he has built software applications in Classic ASP, ASP.NET, Flash, PHP, Node and Ruby. He had the pleasure of managing and mentoring teams of highly talented developers for a few years before moving onto the BBC as a responsive front-end specialist (and then as a full stack cloud-based engineer for their Tier 1 election events). He is a lover of the Unix philosophy and the power of the command line and relishes opportunities to learn new technologies.

Users Review

From reader reviews:

Patricia Joyner:

Book is actually written, printed, or created for everything. You can recognize everything you want by a book. Book has a different type. As you may know that book is important thing to bring us around the world. Alongside that you can your reading expertise was fluently. A book Pro Vim will make you to end up being smarter. You can feel much more confidence if you can know about almost everything. But some of you think that will open or reading a new book make you bored. It is far from make you fun. Why they might be thought like that? Have you in search of best book or acceptable book with you?

Wendy Ray:

Book is to be different for each grade. Book for children until finally adult are different content. As it is known to us that book is very important for people. The book Pro Vim has been making you to know about other expertise and of course you can take more information. It is quite advantages for you. The publication Pro Vim is not only giving you considerably more new information but also to be your friend when you experience bored. You can spend your spend time to read your reserve. Try to make relationship with the book Pro Vim. You never feel lose out for everything in the event you read some books.

Alice Myers:

As people who live in the particular modest era should be revise about what going on or facts even knowledge to make all of them keep up with the era which can be always change and move ahead. Some of you maybe may update themselves by reading books. It is a good choice in your case but the problems coming to a person is you don't know what type you should start with. This Pro Vim is our recommendation to cause you to keep up with the world. Why, because this book serves what you want and need in this era.

Ashley Robinette:

Do you one of the book lovers? If so, do you ever feeling doubt if you are in the book store? Try to pick one book that you just dont know the inside because don't evaluate book by its handle may doesn't work the following is difficult job because you are afraid that the inside maybe not because fantastic as in the outside look likes. Maybe you answer is usually Pro Vim why because the fantastic cover that make you consider with regards to the content will not disappoint an individual. The inside or content is usually fantastic as the outside or maybe cover. Your reading sixth sense will directly guide you to pick up this book.
